

# What's under your hood?

**SuperStack**  
Power Transformer

**Choke**  
3 or 10 Henry—or try  
one of our **NEW**  
**Multi-Choke™** designs!

**FatStack**  
Output Transformer

## Imagine how your **Marshall** would sound if you loaded it with substantially more **IRON**

(We're building them **even better now** than they did in the '50s & '60s!)

The **FatStack™** and **SuperStack™** are **Mercury's** proprietary designs capable of delivering powerful and important improvements to your amp's **tone** (and reliability). **You get:** Extended bass frequency response, richer **tonal** dynamics, better punch-through and touch-sensitivity.

**You get:** A cooler-running amp with superior power-regulation that'll deliver bigger, more open and consistent **tone**.

**You lose:** **Tone**-drift while gaining **tone** stability and headroom. Did you know that your modern **Marshall** is missing the **HUGE tonal** benefits of a **choke**? A **choke** was part of the original **Marshall** magic! Yet most modern **Marshall**s don't have them. We have the remedy—our most popular **Marshall Upgrades** include either **FatStack** or **SuperStack** transformer sets along with a **choke**—an easy installation for any amp tech. It all adds up...

no modern **Marshall** should be without **Mercury Upgrades!**

For more information call your friends at **Mercury** today, or visit our website.

Remember—where you get your **transformers** is where you get your **tone!**

**The most significant **Tone Upgrade**  
for a modern Marshall you can make!**

**Mercury's** sky-high stack literally towers over the stock transformers.

Short on cash? Try a **choke-only Upgrade** (just \$40!)
